

What is Art of the Soul?

Personalized glass art with a small amount of your loved one's ashes fused and protected between layers of glass. There are two styles available, Visible or Non visible.

What is Dichroic Glass?

Dichroic (Die-Crow-Ick) (two colors) is a beautiful glimmering glass originally developed for the aeronautics industry. It is manufactured in a vacuum chamber where an electron beam deposits many microscopic layers of metallic oxides on glass. These metallic oxides transmit certain light wavelengths while reflecting others producing a rich iridescent effect.

Dichroic glass was discovered by bead makers in the early 1990s and has rapidly become adopted as a favorite medium for glass artists.

Variations in the Glass

Each item is a hand-crafted, unique piece of art. Due to the properties of glass, the exact size and design may vary and cannot be guaranteed. The small "blemishes" and "imperfections" found in fused glass add character and uncommon beauty.

Overall size will vary depending on piece

About the Artist:

Lorie was born in San Francisco and now resides in beautiful Sonoma County with her husband, two dogs and two cats. Her inspiration is derived from the beauty of nature.

She began creating her treasures after she lost her Sheltie, had her cremated, and was left only with ashes and memories.

Lorie fused the two together to create Art of the Soul, an everlasting gift. Ashes fused between layers of unique dramatic dichroic and non dichroic glass.

Lorie hopes you cherish your new treasure as much as she enjoyed creating it just for you.
